Your well should look like this after it is plumbed. A final wellhead inspection is **REQUIRED** FOR A **FINAL POWER RELEASE**. There is **NO CHARGE** for this inspection. Call **318-6262** when the well is ready.

1. To properly protect your well from the elements, it is suggested that a well house be constructed over the well.
2. Adherence to this drawing should not be taken as a guarantee of producing a potable water supply.
3. The surrounding land surface should be sloped away from the well for proper drainage.
