STAFF ANALYSIS AND RECOMMENDATION

The Planning and Zoning Staff has reviewed this request finds that this request:

- Meets all technical requirements of both the Ordinance and the Plan;
- Is **not** consistent, **not** reasonable, and **not** in the public interest; and
- Should be **DENIED** by the Randolph County Planning Board.

The Technical Review Committee (TRC) has the following comments regarding this request and its recommendation that the request be denied.

The *Randolph County Unified Development Ordinance*, Article 600, Section 613, describes the *E-1 – First Environmental District* as:

“The purpose of the First Environmental (E-1) District is to provide an area around the North Carolina Zoological Park for low-density mixed land uses, where environmental sensitivity, retention of natural features, and preservation of heritage assets combine to maintain the rural setting. The uses permitted in this District are intended to enhance and preserve the character of the Zoo site. Requests for higher-intensity residential use are considered through standards established in this Ordinance.”

The TRC noted that all zoning changes in the *E-1* zoning district have been for residential development that is keeping with the characteristics of the community and there has never been a rezoning for commercial use. The *Table of Permitted Uses* in the *Randolph County Unified Development Ordinance*, Article 600, Section 618 lists various uses that are allowed in the *E-1* zoning district. This list includes, but is not limited to, the following:

- Amusements, indoor commercial with a Special Use Permit;
- Athletic fields, recreation buildings, playgrounds, etc., by right;
- Camping facilities with a Special Use Permit;
- Community centers for assembly and recreation with a Special Use Permit;
- Subdivisions with an Overlay rezoning;
- Freestanding day care centers with a Special Use Permit;
- Planned Business, Rural or Unit Developments with a Special Use Permit; and
- Pottery shops by right.

All of the uses listed above, along with the remainder of the uses listed in the *Randolph County Unified Development Ordinance*, shows how various commercial operations can be allowed by either a Special Use Permit or allowed by right. Nowhere in the *Randolph County Unified Development Ordinance* are industrial uses such as a meat processing facility allowed in the area around the North Carolina Zoological Park. The TRC thought it was important to note that without the *E-1 – First Environmental District* having been the first zoning in the County in 1973, the State of North Carolina would not have placed the North Carolina Zoological Park in Randolph County.

Reasonableness and Public Interest Analysis: The policies listed above illustrate how this request is **not** consistent with the Ordinance, the Plan, and applicable General Statutes. The parcel in this rezoning request is subject to the Conditions agreed upon between the property owner and the Planning Board. These Conditions will limit the amount and type of development on the property reducing the impact on adjoining parcels. The proposed use could increase the tax base and increase economic activity within the County but are the negative impacts in such close proximity to the North Carolina Zoological Park worth risking the investments from the State of North Carolina?

**COUNTY OF RANDOLPH
CONSISTENCY DETERMINATION AND
FINDING OF REASONABLENESS AND PUBLIC INTEREST**

**IN THE MATTER OF THE APPLICATION FOR REZONING
BY JAMIE LYNN CRUMLEY
REZONING REQUEST #2022-00002764**

NORTH CAROLINA

**RANDOLPH COUNTY
PLANNING BOARD**

According to North Carolina General Statutes § 160D and the *Randolph County Unified Development Ordinance*, the Randolph County Planning Board finds that the proposed zoning district map amendments to *HI-CD - Heavy Industrial - Conditional District* as described in the application of Jamie Lynn Crumley are **not** consistent with the *Randolph County Unified Development Ordinance* and the 2009 *Randolph County Growth Management Plan* and are **not** reasonable and **not** in the public interest for the following reasons:

1. Determination of Consistency with the *Growth Management Plan*.

A. Consistency with *Growth Management Plan Map*

The *Randolph County Growth Management Plan* map for the southeast area shows the parcel to be rezoned in an area designated as *Zoo Environmental Area* which is an area established in 1973 to protect the NC Zoological Park. Large tracts of undeveloped lands can have major impact on the character of the NC Zoological Park. Changes in this area must be developed in a manner intended to enhance and preserve the character of the NC Zoological Park.

B. Consistency with Growth Policies in the *Growth Management Plan*

The Technical Review Committee (TRC) has the following comments regarding this request and its recommendation that the request be denied.

The *Randolph County Unified Development Ordinance*, Article 600, Section 613, describes the *E-1 – First Environmental District* as:

“The purpose of the First Environmental (E-1) District is to provide an area around the North Carolina Zoological Park for low-density mixed land uses, where environmental sensitivity, retention of natural features, and preservation of heritage assets combine to

maintain the rural setting. The uses permitted in this District are intended to enhance and preserve the character of the Zoo site. Requests for higher-intensity residential use are considered through standards established in this Ordinance.”

The TRC noted that all zoning changes in the *E-1* zoning district have been for residential development that is keeping with the characteristics of the community and there has never been a rezoning for commercial use. The *Table of Permitted Uses* in the *Randolph County Unified Development Ordinance*, Article 600, Section 618 lists various uses that are allowed in the *E-1* zoning district. This list includes, but is not limited to, the following:

- Amusements, indoor commercial with a Special Use Permit;
- Athletic fields, recreation buildings, playgrounds, etc., by right;
- Camping facilities with a Special Use Permit;
- Community centers for assembly and recreation with a Special Use Permit;
- Subdivisions with an Overlay rezoning;
- Freestanding day care centers with a Special Use Permit;
- Planned Business, Rural or Unit Developments with a Special Use Permit; and
- Pottery shops by right.

All of the uses listed above, along with the remainder of the uses listed in the *Randolph County Unified Development Ordinance*, shows how various commercial operations can be allowed by either a Special Use Permit or allowed by right. Nowhere in the *Randolph County Unified Development Ordinance* are industrial uses such as a meat processing facility allowed in the area around the North Carolina Zoological Park. The TRC thought it was important to note that without the *E-1 – First Environmental District* having been the first zoning in the County in 1973, the State of North Carolina would not have placed the North Carolina Zoological Park in Randolph County.

2. Statement of Reasonableness and Public Interest

Reasonableness and Public Interest Analysis:

The policies listed above illustrate how this request is **not** consistent with the Ordinance, the Plan, and applicable General Statutes. The parcel in this rezoning request is subject to the Conditions agreed upon between the property owner and the Planning Board. These Conditions will limit the amount and type of development on the property reducing the impact on adjoining parcels. The proposed use could increase the tax base and increase economic activity within the County but are the negative impacts in such close proximity to the North Carolina Zoological Park worth risking the investments from the State of North Carolina?

STAFF ANALYSIS AND RECOMMENDATION

The Planning and Zoning Staff has reviewed this request finds that this request:

- Meets all technical requirements of both the Ordinance and the Plan;
- Is consistent, reasonable, and in the public interest; and
- Should be **APPROVED** by the Randolph County Planning Board.

The following policies from the *Randolph County Growth Management Plan* were identified by the Technical Review Committee and Planning and Zoning Staff as supporting the above conclusion.

Policy 4.4 *Commercial uses should be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.*

Consistency Analysis: There are existing commercially zoned property around and near to the request location. The *Growth Management Plan* encourages “consolidation and deepening of existing commercially zoned property.”

Policy 4.6 *Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas should be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.*

Consistency Analysis: The service establishment as requested in this rezoning is close to residential areas and the use of the service would reduce travel distances for those citizens using the service and could provide services to the local community.

Reasonableness and Public Interest Analysis: The policies listed above illustrate how this request is consistent with the Ordinance, the Plan, and applicable General Statutes. The parcel in this rezoning request is subject to the Conditions agreed upon between the property owner and the Planning Board. These Conditions will limit the amount and type of development on the property reducing the impact on adjoining parcels. The proposed use will also increase the tax base and increase economic activity within the County.

**COUNTY OF RANDOLPH
CONSISTENCY DETERMINATION AND
FINDING OF REASONABLENESS AND PUBLIC INTEREST**

**IN THE MATTER OF THE APPLICATION FOR REZONING
BY CAROL E WILSON
REZONING REQUEST #2023-0000051**

NORTH CAROLINA

**RANDOLPH COUNTY
PLANNING BOARD**

According to North Carolina General Statutes § 160D and the *Randolph County Unified Development Ordinance*, the Randolph County Planning Board finds that the proposed zoning district map amendments to *HC-CD - Highway Commercial - Conditional District* as described in the application of Carol E Wilson are consistent with the *Randolph County Unified Development Ordinance* and the 2009 *Randolph County Growth Management Plan* and are reasonable and in the public interest for the following reasons:

1. Determination of Consistency with the *Growth Management Plan*.

A. Consistency with *Growth Management Plan* Map

The *Randolph County Growth Management Plan* map for the southeast area shows the parcel to be rezoned in an area designated as *Primary Growth Area* which generally lie along major transportation corridors and have access to urban services. This parcel is along US Hwy 311 which is a major transportation corridor.

B. Consistency with Growth Policies in the *Growth Management Plan*

Policy 4.4 *Commercial uses should be encouraged to develop by consolidation and deepening of existing commercially zoned property, only when such consolidation and deepening can be developed in a way that lessens the effect of incompatibility with adjoining residential land uses.*

Consistency Analysis: There are existing commercially zoned property around and near to the request location. The *Growth Management Plan* encourages “consolidation and deepening of existing commercially zoned property.”

Policy 4.6 *Compatible land uses such as rural neighborhood retail and service establishments located close to general residential areas should be considered during the rezoning process with the general goal of reducing automobile travel distances and promoting better livability in the community.*

Consistency Analysis: The service establishment as requested in this rezoning is close to residential areas and the use of the service would reduce travel distances for those citizens using the service and could provide services to the local community.

2. Statement of Reasonableness and Public Interest

Reasonableness and Public Interest Analysis:

The policies listed above illustrate how this request is consistent with the Ordinance, the Plan, and applicable General Statutes. The parcel in this rezoning request is subject to the Conditions agreed upon between the property owner and the Planning Board. These Conditions will limit the amount and type of development on the property reducing the impact on adjoining parcels. The proposed use will also increase the tax base and increase economic activity within the County.

Adopted on February 7, 2023.
